## TECHNICAL COMPETENCIES

- **Cloud** : AWS, DIGITAL OCEAN
- **Languages** : JavaScript, Bash
- **OS** : Debian, Ubuntu

## About Me

Systems engineer in process, technology lover with solid skills in web development. My reserved approach is combined with a passion for solving complex problems. Experienced in data analysis. Looking to contribute to innovative projects where I can apply my dedication to detail and commitment to continuous learning.

## Education

### Information Systems Analysis & Development

*SERVICIO NACIONAL DE ARENDIZAJE / SENA* 2017 - 2020

- Cumulative GPA: 4.5/5.0

- Internship in a company where I acquired a lot of knowledge in server management and web development.

### Systems Engineering

*CUC University - Universidad de La Costa* 2021 - Current

Systems Engineering student, with a focus on web development and database management. Academic experience in the creation of web applications and optimisation of information systems.

## Experience

### Software Developer Jr

*Soluciona Ingeniería Integral Sas*

2019 - 2020

Systems Analyst and Jr. Web Developer with one year of experience in developing dynamic web applications. Proficient in JavaScript, using frameworks such as AngularJS, Node.js and NativeScript. Skilled in relational database management, such as Postgres and MySQL. Outstanding effective communication skills and my ability to collaborate in multidisciplinary teams, committed to delivering innovative and efficient technology solutions.

### Software Developer

*Intra Click*

2021- 2023

Experience in NGINX and Apache web server administration and version control with Git. Proficient in relational and non-relational databases, such as MySQL and Firebase, using JavaScript. Problem-solving and decision-making skills, demonstrated by identifying and effectively solving problems in high-pressure situations.
